Women's Health Matters

Solstas® Women's Testing Services

Improving Women's Health.

For Solstas Lab Partners®, Women's Health means more than just delivering laboratory results. It's about people and providing the best laboratory services possible to our patients *and* providers.

Timing Is Everything.

Solstas understands that time is crucial in diagnosis. That is why our operational focus is on delivering accurate and timely test results. Most specimens are resultated 24-48 hours from receipt, and available to partners through a variety of customizable channels that work for you, including EHR, fax and print delivery.

Your Partner In Women's Health.

Solstas services are specifically designed to work around your schedule. As a busy healthcare professional, we understand that you need a laboratory that is responsive to your needs and those of your patients. You need a partner who works with you for the best possible patient outcome.

Results Matter.

By streamlining the right combination of leading edge tests for women's health issues, Solstas ensures accurate, timely, and easy-to-read reports that become a valuable resource in diagnosis. State-of-the-art CAP and CLIA accredited testing laboratories and highly trained pathology specialists help to keep our physician partners focused on what is most important - patient care. In addition, our partners have direct access to Board-certified pathologists so they can be absolutely certain of their patient's results for the best method of treatment.

Timing and accuracy is what sets Solstas Lab Partners apart as a valuable partner in women's health – for both patient *and* provider alike.

Solstas. Your Women's Health Lab. For Life.
